

# Handheld Laser Particle Counter MODEL P311

Airy Technology P311's large color display shows cumulative and differential particle counts of 3 particle sizes simultaneously. The small and middle particle ranges can easily be changed by a user. P311' s maximum concentration of 4,000,000 particles/ft3 and up to 8,000 data set record capabilities are the highest in the market. Data can be checked on the unit display and/or easily downloaded to your PC via USB cable and saved as a CSV file which is transferable to Excel. P311 is accurate, dependable, user friendly, compact and light weight.
